Pillow Replication Spec

Canvas. 1536 × 2048 px (portrait), background #FFFFFF (true white for cockpit-display contrast — kneeboard paper cream is too low-contrast at small scale). All measurements below are in pixels at this resolution.

Page Frame

Element	Value
Outer margin (all sides)	48
Section gap (between sibling sections)	24
Outer / structural border weight	2.0 px solid #15171A
Inner / divider border weight	1.5 px solid #15171A
Row separator	1 px dotted #C8C2B6 (6px on / 6px off)
Col separator	1 px dotted #C8C2B6

Header (top of page, full width)

Sub-Element	Spec
Strip total height	~150 px (auto-fits content + padding)
Page-tag (left, ink fill, 22px notch on bottom-right)	Background #15171A , height = strip; padding 14 / 22 / 14 / 36; text Barlow Condensed 800 36 px white, all-caps
Title	Barlow Condensed 800, 56 px, #15171A , all-caps, line-height 1, tracking -0.005em
Subtitle line	Barlow 500, 18 px, #2C2F35
Meta cells (Active Program, Map, Generated)	Each cell: padding 10×22, label Barlow 700 12 px tracked 0.18em UPPER #2C2F35 ; value JetBrains Mono 500 22 px #15171A ; “Program 1” uses Barlow Condensed 800 30 px instead.
DimOn-style yellow pennant (top-right corner)	Background #F7D046 , 18 px diagonal cut on bottom-left, optional — purely brand chrome

Section Card

Sub-Element	Spec
Border	2 px solid #15171A
Header band height	64 px, fill #15171A
Header title	Barlow Condensed 800, 28 px white, tracked 0.04em, all-caps, padded 22 px L/R
Header subtitle (optional, e.g. “NAV” or count)	Barlow 500 14 px white, tracked 0.18em, opacity 0.70
Header right-side count (e.g. “3 / 3”)	JetBrains Mono 500 18 px white, opacity 0.75
Column-header strip (inside body, when used)	Fill #ECEE1 (cool light gray), height 40 px, text Barlow 700 13 px #2C2F35 tracked 0.18em UPPER
Default row min-height	56 px
Compact row (Radio 20-channel)	40 px min-height
Row inner padding	8 px top/bottom, 18 px left/right

Cell Typography

Style	Family	Weight	Size	Color
Slot tag (WPT1, ARD1, RSBN1, ADF 1, CH 00)	JetBrains Mono	500	24 px	#15171A
Resolved name	Barlow	600	26 px	#15171A
Secondary value (runway, ch number, freq)	JetBrains Mono	500	22–24 px (tabular nums)	#15171A
Modulation tag (AM/FM)	JetBrains Mono	500	18 px	#2C2F35
SPO-15 Cyrillic glyph	Barlow Condensed	800	36 px	#15171A
SPO-15 Latin equivalent (parens)	JetBrains Mono	500	16 px	#2C2F35

SPO-15 Status Chips

Pill-style fixed-width chip (min-width 90 px, height 36 px, no radius). Centered text is Barlow Condensed 800 18 px tracked 0.12em UPPER. Three states:

State	Fill	Text	Border	Notes
Lock	#FFFFFF	■ #C1273B	1.5 px #C1273B	Outlined red, bold weight. Highest-priority threat — reads at glance without dominating.
On	#FFFFFF	■ #1F8A3F	1.5 px #1F8A3F	Outlined green. Active but not critical.
Off	#FFFFFF	■ #8A8E95	1.5 px #8A8E95	Muted gray, no fill.

Empty-State Pattern

When a section has no entries the body area shows: a top hatched rule (6px-on/6px-off, 1 px, color #C8C2B6), then centered text **NO CONFIG** in Barlow Condensed 800 32 px #8A8E95 tracked 0.16em UPPER, optional hint “NOT PROGRAMMED” in Barlow 500 14 px tracked 0.12em #8A8E95, then a bottom hatched rule. The header band is unchanged so muscle memory holds.

COLOR PALETTE

TOKEN	HEX	USED FOR
ink	#15171A	All primary text, section header fills, structural rules
ink-2	#2C2F35	Secondary text, eyebrows
ink-3	#8A8E95	“Off” status, NO CONFIG label
col-header	#ECEEF1	Column-header strip fill (cool light gray)
paper-2	#E8E4DC	(reference only) warm cream from base palette
rule	#C8C2B6	Dotted dividers
brand-yellow	#F7D046	Optional Dim0n-style corner pennant
data-red	#C1273B	SP0-15 Lock state, critical flags
data-green	#1F8A3F	SP0-15 On state

FONTS

Barlow Condensed (display, 700/800), Barlow (body, 500/600/700), JetBrains Mono (data, 500/700) — all available on Google Fonts. Substitute with Oswald / Open Sans / Roboto Mono if exact families aren't bundled with the Pillow generator. All numeric data uses `font-variant-numeric: tabular-nums` to keep frequency columns aligned.

LAYOUT-SPECIFIC COLUMN SPLITS

LAYOUT	BODY GRID (ROWS × COLS)	NOTABLE PROPORTIONS
Kneeboard	3 rows · top 420 px (3-entry nav triplet), mid + bottom 1fr each	ADF spans cols 1-2 of row 2. Radio occupies col 3 of rows 2-3 (carries the full 20-row preset list). SP0-15 + CMDS fill cols 1 and 2 of row 3.
